SFDR CISD INVESTIGATING REPORT OF THREAT AT LAMAR ELEMENTARY

Around dismissal time Thursday afternoon, a report was made to the Lamar Elementary School principal regarding an unfortunate threat made by a student attending that campus. When the principal received the report, she immediately set into motion District and campus protocols to ensure the school was secure. SFDR CISD Police assessed the campus, and confirmed that there was no imminent threat to the campus.

This morning, as this investigation continued, the campus principal confirmed that a threat was made by a student. There is evidence to believe that the threat was idle, and that there is no immediate or future threats to our student's safety at Lamar. Appropriate administrative action is in progress.

The safety of the students in our District remains our number one priority. SFDR CISD continues to encourage parents and students to report inappropriate behavior and bullying to school personnel.
