LOCAL HEALTH AUTHORITY NOTIFIES SFDRICISD OF CONFIRMED COVID-19 CASE

The Local Health Authority has notified SFDRICISD that one of our 2020 graduates tested positive for COVID-19. The identified student participated in the 8:00 p.m. graduation ceremony held this past Friday, June 5, 2020. SFDRICISD is making this public statement the interest of everyone's safety; and in an effort to maintain full transparency. Furthermore, administration has notified the students who were lined up or seated in proximity of the infected student as well as notified any District staff who may have also come in contact with the infected student.

SFDRICISD is confident that all participants in the graduation ceremony maintained social distancing while marching into the stadium, during the ceremony and while exiting out of the stadium. SFDRICISD also ensured that every student's temperature was taken prior to entering the ceremony; and that the temperature of every student allowed to participate, registered a normal temperature. In this instance, SFDRICISD has been informed that the student was, and continues to be asymptomatic. Therefore, it was impossible for the student or the staff to know the student was infected.
