

SAN FELIPE DEL RIO CISD

February 11, 2021

PRECAUTIONARY WEATHER ADVISORY

San Felipe Del Rio CISD is closely monitoring the forecast of cold, wet weather which has already arrived in town. The future forecast for Del Rio calls for continued cold, frigid temperatures and precipitation through the weekend and well into next week. Should the weather prevent the schools from normal operations due to inclement weather, SFDR CISD will send an alert to all parents through the school's parent app (such as Class Dojo), and through SFDR CISD's Facebook and Twitter pages. Additionally, each campus will attempt to notify parents through the automated phone system. If a delayed start or school closure becomes necessary, the District and campuses will provide alerts by 5:30 AM on the affected day.

In the meantime, we kindly ask parents to take extra precaution in bundling your child with appropriate outerwear (sweaters, jackets, face coverings, etc.) before coming to school.
