SFDR CISD ANNOUNCES ONLINE ASYNCHRONOUS SCHOOLING FOR MONDAY, FEBRUARY 15

The current weather conditions in our area will not improve over the next 24 hours, and temperatures are expected to drop well below freezing causing hazardous road conditions. Therefore, SFDR CISD is announcing that students will engage in asynchronous learning on Monday, February 15, 2021. This means that students are expected to complete posted assignments in their virtual classroom throughout the day and submit to their teachers prior to 11:59 PM Monday night. Assignments for students will post via Google Classroom for elementary students; and for secondary students, course modules and announcements will post via the Canvas platform. These assignments will be found when students log in to their account. Please contact your child's school if your child needs help logging in. Students should also view their school email for specific teacher instructions.

SFDR CISD will assess weather conditions for Tuesday and will announce plans for instruction before 3:00 PM Monday, Feb 15, 2021.
