CTE COMPUTER SCIENCE CYBERSECURITY PROGRAM STUDENTS COMPLETE PALO ALTO NETWORKS NETWORK SECURITY FUNDAMENTALS PROGRAM

San Felipe Del Rio CISD, May 18, 2023 — San Felipe Del Rio CISD's Career and Technical Education (CTE) Computer Science Cybersecurity Program is delighted to announce that all 20 of its third-year students have successfully completed the Palo Alto Networks Network Security Fundamentals Program. This program marks the second of four courses leading to the distinguished Cybersecurity Professional Certificate.

The Palo Alto Networks Network Security Fundamentals Program provides a robust foundation in core cybersecurity competencies. With their successful completion, the students have demonstrated the ability to understand and explain key aspects of enterprise network security, including operations, devices, protocols, and security technologies.

SFDR CISD and CTE are incredibly proud of the commitment and determination shown by our students in the pursuit of excellence. This achievement signals not just the culmination of their hard work but also marks a significant step in their journey towards becoming professionals in the cybersecurity field.

The SFDR CISD CTE Computer Science Cybersecurity program continues to foster a culture of innovation and advanced learning, equipping students with the skills they need to become the next generation of cybersecurity professionals. The Program is led by John Reed, CTE Computer Science/ Cybersecurity instructor.
