

## San Felipe Del Rio Consolidated Independent School District

Empowering Students to Excel

Together, We Are Better!

# Strategic Planning

Strategic planning is a process that empowers stakeholders, such as parents, students, district employees, city officials, business partners, and clergy, to collaboratively shape the future of their school district. Through this process, the district and community become partners in creating a five-year plan. This shared sense of ownership enables districts to overcome obstacles and discover new possibilities for students. All school districts reach a point where they must reinvigorate their practices, and create new systems, or face decline. The strategic planning process galvanizes the community around a common purpose, bringing new life to the district.

# Strategic Planning Process

Through the **strategic planning** process, stakeholders from across the community were brought together to assess the needs of and to offer input on the direction San Felipe Del Rio CISD should take over the next five years. The strategic planning process helped to identify a common set of beliefs that are unique to the community. Every action in the strategic plan was purposefully aligned with the community's beliefs. Community members also harmonized their beliefs and reviewed the district's vision and mission, which became the foundation of the strategic plan. The stakeholders assessed the strengths, challenges, opportunities, and threats the district faced in certain focus areas, or *strands*, identified by school leadership. This information helped set targets for growth, or *SMART goals*, for each strand, along with strategies the district will employ to reach these targets. Finally, a team of content area experts mapped out the action steps necessary to achieve each strategy. Care was taken by the Action Planning Team to give direction and specificity, yet allow leeway as the action steps are implemented by district personnel over the coming five years.

Authentic community and family engagement is key to creating opportunities for students to develop the 21st century skills necessary for success in a global society.

The remaining pages of the report contain the stakeholder-driven, five-year strategic plan for **San Felipe Del Rio Consolidated Independent School District**. The ensuing contents of the strategic plan are broken out into strands identified as focus areas for the strategic plan. The vision, mission, and community beliefs guided the direction of the planning committees and provided a foundation for the plan. Finally, goals, strategies, and action steps are outlined for each strand.

A web resource has been created to house the virtual strategic plan. The virtual plan contains all of the information found within this report. Additionally, fields can be added to aid in implementation and revision of the plan. Examples of additional information to be added include timelines, person(s) responsible, necessary resources, means of measuring implementation of the plan. A strategic plan is a living document that undergoes updates and revisions over time. It is important to note that updates can be made **by anyone provided with the following link**:

### Vision

San Felipe Del Rio CISD, in partnership with our families and community, empowers every student to excel through a culture of collaboration, innovation, and achievement.

## Mission

San Felipe Del Rio provides a high-quality, innovative curriculum with engaging, relevant instruction. We meet the individual needs of students and staff in a safe, nurturing, and collaborative environment which encourages development and growth.

### **Shared Beliefs**

#### WE BELIEVE:

- Communication and collaboration among families, community, and educators are vital.
- In equity by providing the resources, support, and motivation necessary to differentiate instruction.
- All students should be equipped with a strong foundation of knowledge, including 21st century skills, so they are life-long learners prepared to be successful after high school.

#### **Focused Leadership**

SMART GOAL:

By 2027, 100% of campus and district leaders will effectively support and communicate high expectations for student learning.

#### STRATEGY 1:

Implement a district-wide system of professional learning to develop effective instructional leaders.

## **Highly-Effective Instruction**

SMART GOAL:

By 2027, 100% of SFDR-CISD students will meet or exceed grade-level standards.

STRATEGY 1:

Expand the district-wide system to support the social and emotional needs of all students.

## Innovation

SMART GOAL:

By 2027, SFDR-CISD will offer well-established innovative programs to 100% of the students.

STRATEGY:

Provide a district-wide system to foster creativity and promote the diverse learning needs of students.
