T-TESS

This tool was designed to be a resource for goal-setting, pre-conference, and post-conference meetings that are the integral part of T-TESS. It now has full versions of Domains 1 through 4 along with T-TESS Look Fors, conversation starters, the T-TESS Skill-Dimension Crosswalk chart, requirements/recommendations for all T-TESS meetings, and examples of goal-setting options. Consult your T-TESS Appraiser Training Handbook for full guidance on these steps, or contact your T-TESS team at your regional service center.

Visit our Smore page for more support as you roll out T-TESS:

www.smore.com/bukqd

Directions for flip chart assembly:

- 1. Print the PDF.
- 2. Copy all pages except this directions page onto cardstock, front to back, flipping on long edge if your machine gives you an option.
- 3. Cut along gray line on the front side of each page.
- 4. Assemble with binding machine along top edge.
- 5. Complete the purpose statement on the back cover. Leading change is hard. Focus on your end goal and vision for instruction on your campus.

Planning 1.4 Activities

You could say . . .

- Talk about your expectations for the lesson. How will you ensure that all students are challenged?
- What will be your evidence of student mastery?
- What opportunities exist for students to persist with the lesson until they master it?
- For a seasoned teacher . . . What student mistakes do you typically encounter with this content?
- For a new teacher . . . At what point in the lesson might a student make mistakes?
- How might students self-correct?
- How might this lesson provide opportunities for students to take initiative of their own learning?

- Mastery of the objective
- Student mistakes/self-

corrections

 Student initiative/selfmonitoring

2.1: The teacher supports al learners in their pursuit of high levels of academic and social-emotional success.					
DISTINGUISHED	ACCOMPLISHED	PROFICIENT	DEVELOPING	IMPROVEMENT NEEDED	
 Provides opportunities for students to establish high academic and social-emotional expectations for themselves. Persists with the lesson until there is evidence that all students demonstrate mastery of the objective. Provides opportunities for students to self-monitor and self-correct mistakes. Systematically enables students to set goals for themselves and monitor their progress over time. 	 Provides opportunities for students to establish high academic and social-emotional expectations for themselves. Persists with the lesson until there is evidence that most students demonstrate mastery of the objective. Anticipates student mistakes and encourages students to avoid common learning pitfalls. Establishes systems where students take initiative of their own learning and self-monitor 	 Sets academic expectations that challenge all students. Persists with the lesson until there is evidence that most students demonstrate mastery of the objective. Addresses student mistakes and follows through to ensure student mastery. Provides students opportunities to take initiative of their own learning 	 Sets academic expectations that challenge most students. Persists with the lesson until there is evidence that some students demonstrate mastery of the objective. Sometimes addresses student mistakes. Sometimes provides opportunities for students to take initiative of their own learning. 	 Sets expectations that challenge few students. Concludes the lesson even though there is evidence that few students demonstrate mastery of the objective. Allows student mistakes to go unaddressed or confronts student errors in a way that discourages further effort. Rarely provides opportunities for students to take initiative of their own learning. 	
Student-Centered		<u> </u>		Teacher-Centered	

Instruction

Actions

2.1 Achieving Expectations

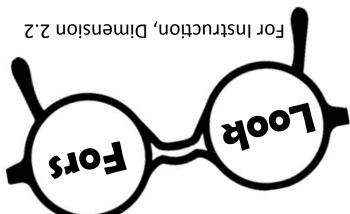

Actions

You could ask . . .

- How do you choose strategies to teach specific skills?
- How do you plan for connecting to other disciplines or making real-world connections?
- For a seasoned teacher . . . What student misunderstandings do you typically encounter ter with this content?
- For a new teacher . . . At what point in the
- lesson might a student misunderstand?

 How might you alleviate or address misun-
- derstandings?
- Where does/did the lesson demand higher order thinking?
- What content is requisite for the lesson?
 How do you determine that?
- How does this lesson fit into the larger se-

quence of instruction?

- Content knowledge in multiplecontexts
- Objectives tied to other disciplines
- (cross-disciplinary)

 Anticipating misunderstandings
- and teaching techniques

 Thinking/higher order thinking
- skills (HOTS)
 Sequencing and linking instruction

2.2: The teacher uses content and pedagogical expertise to design and execute lessons aligned with state standards, related content, and student needs.

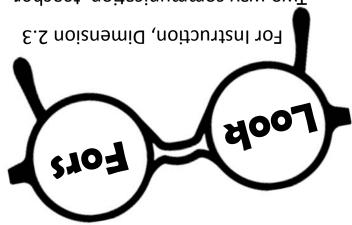

DISTINGUISHED	ACCOMPLISHED	PROFICIENT	DEVELOPING	IMPROVEMENT NEEDED
DISTINGUISHED Displays extensive content knowledge of all the subjects she or he teaches and closely related subjects. Integrates learning objectives with other disciplines, content areas and real-world experience. Teacher-Centered Actions

Instruction

2.2 Content Knowledge & Expertise

You could lead the teacher in reflections like . . .

- How do students communicate with you during the lesson?
- How do students communicate with each other during the lesson?
- How do you approach misunderstandings?
 What methods for clarification do you use?
- Why is it is important for teachers to be clear in their communication? What happens when they aren't clear?
- How do you plan for questioning in your lessons?
- How do you ensure that questions are at a variety of levels during a lesson?
- How do you decide how much wait time students need to process their thoughts?
- How do you plan for technology and/or visual tools that support learning?

- Two-way communication, teacher to student, peer to peer
- Anticipating misunderstandings
- Verbal and written communication
- Questioning/wait time
- Technology/visual tools

2.3: The teacher clearly and accurately communicates to support persistence, deeper learning, and effective effort.					
DISTINGUISHED	ACCOMPLISHED	PROFICIENT	DEVELOPING	IMPROVEMENT NEEDED	
• Establishes classroom practices that encourage all students to communicate safely and effectively using a variety of tools and methods with the teacher and their peers. • Uses possible student misunderstandings at strategic points in lessons to highlight misconceptions and inspire exploration and discovery. • Provides explanations that are clear and coherent and uses verbal and written communication that is clear and correct. • Asks questions at the creative and desired and strategic points.	• Establishes classroom practices that encourage all students to communicate effectively, including the use of visual tools and technology, with the teacher and their peers. • Anticipates possible student misunderstandings and proactively develops techniques to address obstacles to learning. • Provides explanations that are clear and coherent and uses verbal and written communication that is clear and correct.	• Establishes classroom practices that provide opportunities for most students to communicate effectively with the teacher and their peers. • Recognizes student misunderstandings and responds with an array of teaching techniques to clarify concepts. • Provides explanations that are clear and uses verbal and written communication that is clear and correct.	DEVELOPING Leads lessons with some opportunity for dialogue, clarification or elaboration. Recognizes student misunderstandings but has a limited ability to respond. Uses verbal and written communication that is generally clear with minor errors of grammar. Asks remember and understand level questions that focus on the	Directs lessons with little opportunity for dialogue, clarification or elaboration. Is sometimes unaware of or unresponsive to student misunderstandings. Uses verbal communication that is characterized by inaccurate grammar; written communication that has inaccurate spelling, grammar, punctuation or structure.	
sis levels that require a deeper learning and broader understanding of the objective of the lesson. • Skillfully balances wait time, questioning techniques and integration of student responses to support student-directed learning. • Skillfully provokes and	 Asks questions at the creative, evaluative and/or analysis levels that focus on the objective of the lesson and provoke thought and discussion. Skillfully uses probing questions to clarify, elaborate and extend learning. Provides wait time when questioning students. 	 Asks remember, understand and apply level questions that focus on the objective of the lesson and provoke discussion. Uses probing questions to clarify and elaborate learning. 	objective of the lesson but do little to amplify discussion.	Rarely asks questions, or asks questions that do not amplify discussion or align to the objective of the lesson. Teacher-Centered	

Instruction 2.3 Communication

You could say . . .

- How will this lesson address the needs of all students?
- How will you provide different instructional methods and/or content to ensure mastery?
- How have you planned to avoid confusion during the lesson? (varied references, anchor charts, examples, etc.)
- How do you encourage engagement across varied student abilities?

What supports are planned to ensure student mastery?

What learning or social/emotional needs exist in your classroom? How will you address them?

You could ask . . .

- How do you gather input from students to choose next steps in instruction?
- How do you gauge and adjust for student engagement?
- How will you monitor both behaviors and responses from students to assess their engagement and understanding?
- How do you check for understanding both formally and informally?

- Individualized lessons
- Monitoring participation and performance
- Differentiated content and methods (process)
- Recognizing confusion and disengagement

2.5: The teacher formally and informally collects, analyzes, and uses student progress data and makes needed lesson adjustments.					
DISTINGUISHED	ACCOMPLISHED	PROFICIENT	DEVELOPING	IMPROVEMENT NEEDED	
 Systematically gathers input from students in order to monitor and adjust instruction, activities or pacing to respond to differences in student needs. Adjusts instruction and activities to maintain student engagement. Uses discreet and explicit checks for understanding through questioning and academic feedback. 	 Utilizes input from students in order to monitor and adjust instruction, activities and pacing to respond to differences in student needs. Adjusts instruction and activities to maintain student engagement. Continually checks for understanding through purposeful questioning and academic feedback. 	 Consistently invites input from students in order to monitor and adjust instruction and activities. Adjusts instruction and activities to maintain student engagement. Monitors student behavior and responses for engagement and understanding. 	Sometimes utilizes input from students in order to monitor and adjust instruction and activities. Adjusts some instruction within a limited range. Sees student behavior but misses some signs of disengagement. Is aware of most student responses but misses some clues of misunderstanding.	 Rarely utilizes input from students in order to monitor and adjust instruction and activities. Persists with instruction or activities that do not engage students. Generally does not link student behavior and responses with student engagement and understanding. Makes no attempts to engage students who appear disengaged or disinterested.

For Learning Environment Dimension 3.3

- Relevant, meaningful learning
- Working respectfully (individual and group)
- Collaboration and rapport

Watch for . . .

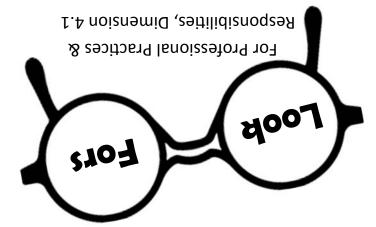

- Evidence that students are engaged (responses, questions, facial expressions around understanding or confusion).
- Student interactions.

3.3 Classroom Culture: The	teacher leads a mutually re	spectful and collaborative	class of actively engag	ed learners.
DISTINGUISHED	ACCOMPLISHED	PROFICIENT	DEVELOPING	IMPROVEMENT NEEDED
 Consistently engages all students with relevant, meaningful learning based on their interests and abilities to create a positive rapport amongst students. Students collaborate positively and encourage each other's efforts and achievements. 	 Engages all students with relevant, meaningful learning, sometimes adjusting lessons based on student interests and abilities. Students collaborate positively with each other and the teacher. 	 Engages all students in relevant, meaningful learning. Students work respectfully individually and in groups. 	 Establishes a learning environment where most students are engaged in the curriculum. Students are sometimes disrespectful of each other. 	 Establishes a learning environment where few students are engaged in the curriculum. Students are disrespectful of each other and of the teacher.

Learning Environment

Dimensions 3.1, 3.2, and 3.3

This dimension is pretty observable as you work with a teacher. However, you may not be aware of advocacy efforts. You can dig into the Proficient expectation by asking about what the teacher does when it becomes clear that a student needs something more or different from other students.

- soidte to eboO

Student-Centered Actions

Teacher-Centered Actions

- Goals—short- and long-term
- Self-assessment

This dimension focuses on a teachers ability to reflect on his/her work and find room for improvement. Your questions here could guide toward that kind of self-awareness, reflection on practice, and desire to elevate practice each year. Think "SMART" goals (Specific, Measurable, Achievable, Realistic, and Time-bound), but do allow for the measurability to come from data (more quantitative) AND/OR evidence (more qualitative).

4.2: The teacher reflects on	his/her practice.

 * Adapted from Rochester City School District Suggested Goal Setting Process

It's okay to be where you are; it's not okay to stay there.

-Tim Regal, sharing an adage that has emerged as the state appraisal team has messaged T-TESS to districts.

Goal (What do you want to achieve?) Dimension (What is/are the correlating dimension(s)?	Actions (How will you accomplish the goal?)	Targeted Completion Date (When do you anticipate your goal will be met?)	Evidence of Goal Attainment (How will you know your goal has been met? How will you know whether or not it has im- pacted instruction and student achievement?)
Goal 1:			
Dimension(s):			
Goal 2: (optional)			
Dimension(s):			

Thoughts from the PLC room . . .

I have had the chance to work with dozens of teachers from several campuses to flesh out or clarify their first T-TESS goals. While we want S.M.A.R.T. goals, the biggest hang-up I've seen so far is demanding the measurable piece to be student performance data. The intention of the state was for a teacher to set a goal to address an area of practice that needed work based on a number of things, possibly including student performance, teacher reflection, or even appraisal data. At times, the "data" will be more evidence of effort and work.

One teacher I've worked with recently wanted to do a better job with communicating with parents, so he set a goal around Dimension 4.4, School Community Involvement. His evidence will be reports from digital tools he plans to utilize, copies of newsletters, and even a communication log. While it would be within reason to believe that these steps would improve parent and student investment in school and possibly, therefore, scores, student data is not a good indicator of his work.

I had an ambitious teacher tie her goal set around 1.2, Data and Assessment, and 1.4, Activities, with her measurable indicator being a tiered expectation of improved reading levels by the end of the year based on BOY reading levels. Student performance will be an indicator in her goal.

We are all learning this system. For the first goal a teacher writes under the new system to simply be an area where the teacher has discerned need answered with action steps and measured with evidence to prove the effort is workable. Some teachers have been doing this kind of work; others who haven't will need to practice the process of identifying a professional need and making measurable improvements. Be ready to meet teachers where they are and lead the growth.
