Student Achievement

Strengths

- Instructional strategist/coaches (core areas)
- BASE classroom
- QTEL, ABYDOS programs
- AR Program
- DMAC-student data
- Aides in English I classes
- ESL aides in core areas
- Co-teach settings
- Migrant Advocate
- Tutoring/Upgrade- before or after school provided
- PLATO for credit recovery

Needs

- Reduction in classroom size
- Early Intervention Program for Special Ed, 504, ESL, & At-Risk students
- Resource class or pull out program for English I & Algebra I
- Appropriate placement of ELL

Summary Needs

In regards to Student Achievement on campus, our strengths out number our needs. However, the needs are critical to better serving our students' academic essentials. An intervention program needs to be place at DRFS for students who are Special Ed, 504, ESL, and At-Risk and begin intervening at the start of the school year. One need is concerning the very low academically Special Ed students who are in need of slow paced instruction in a Resource class or temporary pull out program for English I and Algebra I. The final need is an appropriate placement of ELL students.

Student Achievement

May 2016

1. How is student achievement data disaggregated?

Student achievement data is disaggregated into demographics, core areas, state assessments, local benchmarks, and TELPAS which is accessed on DMAC solutions website and School Report Card.

2. How does student achievement data compare from one data source to another?

Student achievement data met standard and shows previous as well as future project percentages for the campus to meet. In addition, it compares the demographics of standard performance rates.

3. What does the data indicate when disaggregated by ethnicity, gender, socioeconomic status, special program, or other category?

The data indicates past state assessments in tested core areas at the Freshman campus. Data shows the percentages of different performance % of demographics. It varies in each categories.

4. In which areas are we showing growth? At what rate? Compared to which standard of achievement?

Based on the 2016 Performance Index, growth was shown in student achievement with a score of 76, student progress with 27, closing performance gaps with 41, and postsecondary readiness with 52.

5. Which students are making progress? Why?

All students are making progress due to tutoring/upgrade before & after school, PLATO, assistance in BASE (content mastery), ESL core area aides, English I aides, great curriculum writing and Planning Protocol.

6. What impact are intervention programs having on student achievement? Which students are benefiting or not? Why?

The intervention programs are impacting the students who are at borderline passing and below. They benefit the most and the ones not benefiting would be the advance students due to material that do not fully challenging their academic needs. Also, having tutorials/credit recovery before and after school benefits low scoring students.

7. What does the longitudinal student achievement data indicate?

The longitudinal student achievement data indicates the % of Level II Satisfactory Standard, Postsecondary Readiness Standard, Advance

Standard, Met or Exceeded Progress, and Exceeded Progress with different demographics.

8. What does the data reflect within and among content areas?

The data reflects the % of Level II Satisfactory Standard, Postsecondary Readiness Standard, Advance Standard, Met or Exceeded Progress, and Exceeded Progress. The data shows that Science is the highest among the categories above.

9. What does the data indicate when disaggregated at various levels of depth?

The data indicates % of Level II Satisfactory Standard, Postsecondary Readiness Standard, Advance Standard, Met or Exceeded Progress, and Exceeded Progress for reporting categories based off demographics in each tested core areas.

10. Which students are making annual progress? Which ones are making projected growth? Who are these students? How does this data compare across programs, content areas, subgroup, etc.?

There are 749 students at DRFS. The white population are making annual progress and projected growth basing the STAAR statistics, second is the Hispanic population group. The data compares across the programs with scored percentages in all tested core areas under Level II Satisfactory with White demographics at 91%, Hispanic at 75%, and economically disadvantaged at 72%. The data compares across the programs with scored percentages in all tested core areas under Postsecondary Readiness Standard with White demographics at 67%, Hispanic at 44%, and economically disadvantaged at 38%.

Demographics

Strengths:

- Per ethnicity groups, students met or exceeded state averages on state assessment
- Have programs in place to help sub populations in Core Area Subjects:
 1. Bilingual para professional
 2. Co-Teacher
- Technology – One to One Initiative
- Migrant Advocate

Needs:

- Need more Special Ed teachers to create Co-Teach environment for Science & Math
- Need tutors for special populations (504, Special Ed, ESL, etc.)

Summary of Needs:

Although our campus has many strengths, there are some important improvements that need to be considered. First, the Science Department is in need of a Special Education teacher to establish a co-teach environment for the special needs population. Second, although the math department has two Special Education teachers which implements two co-teach settings, one of the two Special Education teachers is only in attendance a fraction of the time needed. Finally, it is recommended that tutors for special population (such as 504, Special Ed, ESL, etc.) be considered. As we all know, the purpose of tutoring is to help students help themselves and to assist or guide them to the point which the student becomes an independent learner.

School Culture and Climate

Look for patterns in the data that reveal trends or insights about the district/school. A brief statement for each of the dimensions helps introduce or frame the discussion of trends which emerge in the data, particularly across data sources. Identify below statements about the strengths, as well as the priority need areas of the district/school.

Strengths

- * Faculty and staff camaraderie
- * Leadership communication with faculty and staff
- * Career and Technology courses offered
- * Double block of ELA
- * Planning Protocol
- * Early College High School Program
- * Student activities
- * Motivational strategies for students

Needs

- * Improve student attendance
- * Decrease student tardies
- * Increase security personnel/clear expectations
- * Consistency and structure in D-Hall/ISS
- * Update campus facilities
- * Technology technician on campus

Summary of Needs

DRFS is a safe campus with strong leadership and a unified faculty and staff. The facilities on the campus are continuously improving, teachers are provided with adequate lesson planning and discussion sessions and all students are offered a variety of opportunities to succeed and showcase their talents. Needs for the campus include improved student attendance, procedures to decrease student tardies, communication of expectations to and from security personnel, consistency and structure in the D-Hall/ISS room, updates on campus facilities including classroom furniture, and an on-site technician available for any technology issues that may arise throughout the school day.

Staff Quality, Recruitment and Retention

Staff Quality, Recruitment and Retention refers to the school organization's level of high-quality, highly-effective staff, particularly in high-poverty schools. This area is also focused on assessing the effect of recruitment and retention strategies on staffing patterns.

Potential Data Sources:

- Teacher Certification/Qualification Data
- Paraprofessional and Other Staff Qualifications
- Staff Effectiveness in Relation to Student Achievement
- PDAS and/or Other Staff Effectiveness Data
- Staff Mobility/Stability
- Special Program Qualifications, e.g., Bilingual/ESL, Special Education, etc.
- Professional Development Data
- Teacher-Student Ratios
- Graduation, Completion, Dropout, and GED rates
- Course/Class Completions, Grades, and Other Data
- Recruitment and Retention Strategies and Other Data

A brief statement for each of the dimensions helps introduce or frame the discussion of trends which emerge in the data, particularly across data sources. Identify below statements about the strengths, as well as the priority need areas of the district/school.

Strengths

- 86% certified in content area
- 41% have masters
- Paraprofessionals furthering education
- 95% above permanent staff
- Very few requesting transfer
- Overall new teacher feel supported by staff/admin.
- Differentiates lessons for students
- Overall staff attendance is good.

Needs

- Staff needs more training pertaining to subjects taught
- Special ed. population needs to be more closely monitored when assigning classes.
- To have a more active mentor interaction & consistency.
- More teachers to be certified in field.
- All data is not uniformly shared among all teaching staff.
- Staff felt more mentors were needed for newest staff members.

Summary of Needs

- Del Rio Freshman teachers overall are seeing a decline in the working environment of the campus. Staff members still feel that improvement is needed in all areas.

Prepared by DRFS ELA Department
2017

Strengths

- Planning Protocol
- Dashboard
- Implementing QTEL activities
- Implementing ABYDOS activities
- Sharing on Thursdays PP
- Accessibility of resources have been readily accessible for students' & teachers' use from our library
- Co-Teaching in ELA & Algebra
- Admin feedback after walk-thrus/ observations
- Support of ELL & Reading strategist
- STAR reading at beginning of year
- Continued use of STAAR formatted work
- Continued use of ELA textbooks & workbooks
- ESL tutors in ELA, Algebra & Biology for the **ENTIRE YEAR**
- Continued use of **DMAC** for data addressing students' weaknesses
- ECHS program

Needs

- Two days of planning for manipulates, resource gathering & making copies
- Not having PP interrupted by PD
- Working technology, Laptops need to have restrictions lifted and be updated
- Co-Teach in Biology (tested area too)
- Interventions to identify and work with special pops: Special Ed, 504, ELLs, GTs, and Behavioral Unit
- +3 year ELL students should be mainstreamed
- Teacher specific PD not all lumped together just because
- Resource classes for lower performing Special Ed students
- TELPAS testing should use "other" staff instead of ELA staff... ELA staff needed in the classroom so close to EOC.
- Reading/Math lab
- BASE needs to be better organized to work with students' needs.
- Technology needs to be working on testing days (TELPAS & EOC) & have a high leveled technician available on site during those days.
- Admin updates staff on committees, changes in testing (use of graphic org for non-Special Ed students, etc.)
- Mentoring program

Summary of Needs:

DRFS has many strengths in our **Curriculum, Instruction and Assessment** areas, but there are also some **NEEDS** that have not yet been addressed and are ongoing from last year's Needs. **Planning Protocol** is definitely an advantage for the core areas and our elective teachers should be afforded that same time. Different core departments have scheduled routines such as Thursday's sharing in the ELA department. This time allows for many resources and ideas to be shared and presented. The planning has also helped in the sharing and implementing of QTEL and ABYDOS activities. The **Dashboard** has also been a good resource for the core departments. **Planning Protocol** is at times negatively impacted by interrupted professional development or trainings. We have also found that one day of working on manipulates and resources is not enough. We would like to have two days for acquiring resources, making copies, and finding new activities/technology use, etc. to fill the new "90 minute" block schedule being

A brief statement for each of the dimensions helps introduce or frame the discussion of trends which emerge in the data, particularly across data sources. Identify below statements about the strengths, as well as the priority need areas of the district/school.

Strengths

- Technology continues to become an essential tool for course lessons for teachers + students
- Teachers + other staff use Skyward Gradebook to record grades + attendance, print reports + have access to other pertinent data of students.
- Parents + students can view respective student progress in courses + attendance in Skyward Gradebook
- Various teacher links are available

Needs

- A computer lab with 40 desktops for students to use in a class.
- A working + stronger Wi-Fi connection.
- Computers + not terminals in classrooms.
- An improved network system to allow for growth.
- Available software programs that work
- Replace broken + outdated technology equipment including printers
- Still need better access for on-line books
- Update electrical support to prevent technology connection overload
- Better system of communication by technology department with respective schools on changes and updates.

Summary of Needs

- Technology Need 1
- Improvements are slowly being made to the network but a good Wi-Fi connection is still in demand, especially when students try to access on-line textbooks on the tablets. A computer lab with about 40 desktops would be a major benefit for all of the non-technology classes. Also, the technology department needs to have a better system of communicating with staff on changes and updates.
