COURSE SYLLABUS

PRO TIP

Read the syllabus carefully and ask questions of the instructor about anything you don't understand.

- A syllabus will be given to all students detailing the course grading criteria and the students academic evaluation
- Students must follow the syllabus: all assignments, testing, grading decisions, etc are outlined on the syllabus by the instructor of the course
- Required texts will be listed on this syllabus as well
- Any questions, concerns, disputes about the course should first be brought to the attention of the instructor

Think about...

- Compare your college and high school calendar
 - often may not match such as holidays.
- As a college student you are responsible to meet college deadlines
- College classes will require **MORE** work than your high school classes.
- Going to every class meeting, taking notes, practicing active listening and participating in class are vital to your success.
- Additionally, making sure that you arrive prepared for each class via completion of assigned readings and assignments is critical.

PRO TIP

Read the syllabus carefully and ask questions of the instructor about anything you don't understand.

Academic Freedom

- College professors have academic freedom and may cover controversial topics, or topics that would otherwise not be discussed in high school classes.
- The content of a college course is **NOT** altered for students under 18 years of age.

Remember: you have the responsibility to read and learn from the syllabus to register for a college course, and are allowed as a college student!
