Fine Arts

The San Felipe CISD and the Fine Arts Department believe that a Fine Arts education is essential for the development of the whole child. The arts provide students with unique experiences that allow them to explore their passions, maximize their creativity and critical thinking skills, and learn valuable lessons about self-motivation, dedication, team work, and communication. San Felipe Del Rio CISD is dedicated to providing an arts-rich education for every student. Fine Arts education is available at all 12 schools serving all of the district's 10,500 students.

Beginning in the elementary grades SFDR CISD students have multiple opportunities to develop their artistic and musical talents. Secondary schools throughout the District offer many different fine arts strands for students to pursue:

- Band
- Choir
- Orchestra
- Jazz
- Mariachi
- Dance
- Theatre
- Visual Arts

Athletics

San Felipe Del Rio CISD's Athletic Program takes pride in providing opportunities for athletes, teams and coaches to reach their highest potential both on and off the playing field. Our educational commitment is academics first and then athletics. We strive to model and instill in our athletes accountability, responsibility, respect, dedication, commitment to a cause, and the belief that there are no short cuts to success. The team concept in competitive sports provides many opportunities to learn and apply to life skills such as trust, working together, communication, and reaching our physical and mental limitations and abilities. San Felipe Del Rio CISD offers a variety of sports activities for young athletes at the JV and Varsity levels such as football, volleyball, basketball, tennis, golf, baseball, softball, soccer, cross-country, cheer, athletic training, track, powerlifting and swimming.

Alfredo Contreras, Board Member
Amy Haynes-Sanders, Board Member
Kenneth Smith, Board Member

District Vision:

San Felipe Del Rio CISD embraces a belief in developing a strong culture of Courage, Collaboration, Innovation and Self-Direction. We are committed to ensuring high expectations and high standards that will equip and produce learners that will excel academically, in life and in their career.

District Goal: 1	Student Performance: The District shall maintain a safe environment, utilize a transformative curriculum and diverse instructional opportunities to ensure student socialization and student achievement at the highest standards of excellence.
District Goal: 2	Finance: The District shall be a good steward of the community's resources – financial, human, facilities – and explore new opportunities for organizational efficiency and effectiveness
District Goal: 3	Communication: The District shall provide meaningful communication in a timely manner to all parents, students, staff and District partners.
District Goal: 4	Del Rio Middle School: The District shall study the current level of satisfaction which will lead to a plan for improvement at Del Rio Middle School.
District Goal: 5	Literacy: The District shall prioritize reading as a skill for lifelong learning.

- Laughlin Elementary STEM Magnet
- North Heights Elementary
- Ruben Chavira Elementary

Foundation & Marquee Programs

Bilingual Academies

San Felipe Del Rio CISD is proud to offer Bilingual Academies for recent immigrants and students who demonstrate limited levels of English language proficiency. The Bilingual Academies offer students specialized and intensive support in small class settings until they have reached an advanced level of English proficiency, or have participated in the program for two consecutive academic years of study. Teachers routinely implement purposeful linguistic accommodations through tiered classroom instruction for ELL students throughout the course of the school year.

Power Hour and Power Block are focused and targeted hours of instruction which provide all K-12 students with individualized accelerated support, resources and guidance necessary to guide them towards academic success in reading and comprehension. The program operates on the belief that a child's progress depends upon open communication, routine support and progress monitoring between students, staff, and parents. Many of the children attending the program consistently achieve grade level improvements and progress in their daily grades, local and state assessments, and six-week report card grades.

Power Hour/ Power Block

The Blended Academy is a non-traditional campus which serves 8th -12th grade students in a customized, individualized and personalized standards-based instructional environment using multiple models of blended learning. Specially created to provide a learning experience completely different from that provided by traditional means, the Blended Academy targets students who have struggled academically. Smaller classes allow Blended Academy teachers the opportunity to give each student the individual attention that they need. It also makes it possible for teachers to tailor lessons to each student's specific needs. Teachers in these schools employ a wider range of teaching methods to cater to the diverse group of students in their class.

The state's goal for G/T students is to ensure that those students who participate in G/T services demonstrate skills in self-directed learning, thinking, research, and communication. Beginning the 2018-2019 school year, San Felipe Del Rio CISD initiated a redesigned plan to establish a protocol for services that leads 1st-12th grade G/T students to a pathway of depth and complexity beyond the general curriculum. San Felipe Del Rio CISD currently offers G/T and advanced level students multiple opportunities to develop innovative products and sophisticated performances that reflect individuality and creativity and are targeted to audiences outside the typical classroom.

Gifted & Talented

Early College High School

SFDR CISD Early College High School
San Felipe Del Rio CISD's Early College High School is a college preparatory dual enrollment high school program strategically designed to fulfill and exceed college and university admission requirements. It is an academic program intended to enable students to pursue post-secondary education at a community college, four-year college, or university. ECHS is the creation of a strong and influential college bound culture with high expectations for all students. The program is structured to provide successful, challenging, and meaningful experiences for students. Students are offered not only the opportunity to earn a high school diploma and meet university entrance requirements, but they also take college courses through Southwest Texas Junior College (SWTJC) and Angelo State University (ASU) for which they receive college units through dual enrollment. ECHS has a maximum population of one hundred students per grade level, allowing for smaller class sizes, frequent opportunities for individual participation, and personalized attention from faculty and staff. By changing the structure of the high school years and compressing the number of years to a college degree, Early College High School improves graduation rates and better prepares students for entry into high-skill careers.
