Our Purpose

In 2012, the SFDRCSID's Board of Trustees created the "Education Foundation", a non-profit organization with the sole purpose of fundraising for activities &/or uses not otherwise provided for by public monies.

Operating independent of the School District's and/or the Board of Trustee's control, the Foundation's goal is to "enrich, strengthen, enhance, & support" the school district by funding educational projects and activities that directly benefit district staff and students.

As of August 2016, the Education Foundation will have awarded 19 grants totaling over \$35,000 to allow local educators to bring their innovative, inspirational educational projects to life. In addition, the Foundation is leading the way in funding "Exemplar Lesson" incentives as well as recognizing campus "Teacher of the Year" winners, for a total re-investment in local education of almost \$40,000.

A Legacy of Pride

The Education Foundation is proud to invest in creative teaching opportunities that stimulate learning and make a difference in our students' lives.

To assist our fundraising efforts, the Foundation is offering sponsorships of auditorium seats within the Student Performance Center of the newly renovated Student Performance Center & Administration Building, a.k.a. the "old" Del Rio High School.

Whether or not one walked the halls of this beautiful building in its past, we can all become a permanent part of its future. Sponsorship provides an engraved, brass nameplate recognizing the donor &/or honoring a chosen family member or graduate that will be permanently affixed to the back of a seat within the Center.

Sponsorship opportunities are detailed herein. To make your mark on local education, contact any Board member or visit our website or Facebook page for an order form.
