DEL RIO ATHLETIC COACHES MEET UIL AND STATE LAW REQUIREMENTS

Del Rio Athletics takes pride in hiring stellar coaches and ensuring each participates in meaningful staff development and training. We believe our coaches carry a great responsibility to encourage our students to reach the next level both on and off the playing field or court. We also ensure the highest standards are maintained to keep students safe and healthy.

In our district, strict protocols are followed with regards to compliance trainings. Compliance trainings include UIL Coaches Certification Program (CCP), Fundamentals of Coaching, Cardiopulmonary (CPR), First Aid and Automated External Defibrillator (AED), and concussion training. The Athletic Director keeps track of these records to ensure 100% of coaches are in compliance at all time.

UIL Coaches Certification Program (CCP), formerly Rules Compliance Program (RCP), is required for every coach each year to complete. This training ensures that each of our coaches is up to date on the latest UIL information regarding rules and regulations.

First year coaches are required to complete a Fundamentals of Coaching course to ensure they are adequately prepared and trained to handle their new responsibilities as a District coach.

Each coach is CPR, First Aid and AED certified. This training is completed every two years and complies with American Heart Association regulations. Although CPR and AED training is required by the State, Del Rio Athletics goes above that standard by requiring our coaches to complete First Aid training as well. The Del Rio Athletic Department recognizes that our coaches will be the first person to reach our students if an injury occurs. We want them prepared to render aid whether at their campus or away.

Our coaches also complete a two-hour Concussion Training course every two years. Del Rio Athletics takes many preventive steps in proper training and equipment purchases to reduce the risks of a concussion for our athletes. However, if a concussion occurs, our staff and trainers have been trained on the signs of a concussion and follow strict University Interscholastic League concussion protocols in order to ensure the safety and well-being of our athletes.

Del Rio Athletics always puts the safety and well-being of our student athletes as our number one priority. Our coaching staff is well-trained and well-educated and works to teach proper techniques and responds when and if they are needed by a student athlete.

Frenchey McCrea Jr.

SFDR-CISD Athletic Director
