

SAN FELIPE DEL RIO CISD

Press Release – August 12, 2022

ENCOURAGING SAFETY IN AND OUT OF SCHOOL

Over the next six weeks, Teachers across all grade levels will be discussing safety and security topics with your students. These topics range from the need to report any type of hazing and/or bullying to observing safety practices when walking home. We encourage every parent/legal guardian to reinforce these topics over conversations at the dinner table, while driving to school, or at any appropriate time. In light of two recent reports regarding adults attempting to lure female students, we are asking every parent to reinforce the “Do not talk to strangers” and the “Do not accept rides from anyone” message. We thank you for your partnership and your trust in our SFDRCISD system.

We would also like to take this time to thank the Sherriff’s Office and the Del Rio Police Department for providing security to our Elementary campuses; and especially thank them for their efforts in investigating everything that poses a threat to our students. Together We Are Better!
