

"Receiving the Texas Leadership Scholars grant gave me the motivation I needed to fully devote myself to college and everything it had to offer.

I would not be where I am today without this program. I have met so many people I now consider to be some of my closest friends in an environment where I am supported as I explore outside of my comfort zone.

This opportunity is literally life changing."

Julia P.

Computer Engineering Major
The University of Texas at Arlington
Lewisville High School 2022
