
Note: See FFC(EXHIBIT) regarding transportation of students in foster care.

Bus Routes

School bus routes will be planned to consider:

1. Student population density;
2. Bus capacity;
3. Traffic routes, including hazardous traffic areas or an area with a high risk of violence;
4. Economy of operation;
5. Location of authorized bus stops;
6. Condition of roads and bridges;
7. Student travel time; and
8. Transportation of ineligible students, if authorized by the Board.

A preliminary schedule of bus routes, including designated bus stops, will be published and distributed to students and parents no later than August 1; the final bus schedule will be published no later than August 15. The Superintendent or designee will promptly inform students and parents of subsequent schedule changes.

All students who use District transportation will board buses at authorized stops.

Use of Private Vehicles

Evidence of personal liability insurance will be required for any private vehicle used to transport students on District business.
